Summary

I am a Web Developer working in **HTML5**, **CSS3**, **JavaScript**, **Ruby**, **ReactJS**, and **NodeJS**. I used to be a manager as well as a line cook, working in restaurants and a food truck. Being a line cook has taught me to focus on time management and exercise patience when the work place got hectic. Currently, I am working on an **iOS** mobile app, built with **React-Native**, that allows a pilot to score, track, and assess certain risks in the field and create a log for the FAA to view and verify.

Technical Skills

- HTML5   - CSS3   - JavaScript   - ReactJS   - NodeJS   - jQuery   - Git
- BootStrap - Express   - Ruby   - MongoDB   - Materialize   - SQL   - FOH/BOH

Projects

Let's Fly:
This was a group project and my role was being the scrum master and ensuring that all team members stay on track and organized. Our team used, **HTML5**, **Materialize**, **JavaScript**, **NodeJS**, **Express**, Amadeus API, Google API, Wikipedia API, and 500px API. Login using a Gmail account.

Drawify:
This is an application that allows a user to snap a photo of themselves, using their computers web camera, and then the user can draw over that picture. The entire application was built using **ReactJS**, **JavaScript**, **NodeJS**, **Materialize**, and **Express**. To login use email: guest@email.com password: asdasd
